**SOEP** Survey Papers  
Series A – Survey Instruments (Erhebungsinstrumente)

## SOEP-Core – 2021: Mother and Child (2-3-year-olds, techn., with Reference to Variables)

SOEP Group

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

- Series A – Survey Instruments (Erhebungsinstrumente)
- Series B – Survey Reports (Methodenberichte)
- Series C – Data Documentation (Datendokumentationen)
- Series D – Variable Descriptions and Coding
- Series E – SOEPmonitors
- Series F – SOEP Newsletters
- Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

Editors:

# SOEP-Core – 2021: Mother and Child (2-3-year-olds, techn., with Reference to Variables)

SOEP Group

2023

The variable names mentioned in this document belong to a collection of datasets, which is released with doi:10.5684/soep.core.v38o.

## Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

The diagram illustrates the structure of a questionnaire entry. It shows two questions, Q72 and Q73, with their respective text, instructions, and answer options. Below each question, there are variable definitions in green text, including dataset names, variable names, and variable labels. Some identifiers are highlighted in blue to indicate filters. A grey bar is shown below Q73, indicating an open or numeric answer.

**question number** → Q72

**question text** → Now we would like to know something about you personally. Were you born in Germany?

**interviewer instruction** → This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.

**answer options** → Yes (1), No (2), No answer (-1)

**in blue: identifier for filter** → Q72:lsta1

**in blue: filter with condition** → Q72:lsta1=2

**grey bar: open or numeric answer** → [Grey bar]

**in green: dataset name, variable name, variable label** → bio I0013 born in Germany, Q73:lsta2 bio I0016 Country Of Birth

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

**Intro** During their first few years, children go through a wide variety of developmental stages. This important phase of life is of crucial interest for scientific research. Therefore, we would like to ask you a few more questions about . Our questions relate to your personal experiences and the development of the child. With each further round: We would also like to ask you some questions about . It is, just as before, about your personal experiences and the development of .

### 0 Household number:

1:99999999

Name:

0:mname blmuki2 mname [de] Vorname der Befragungsperson
