In this article the ethical standards read:

“For this article no studies with human participants or animals were performed by any of the authors. All studies mentioned were in accordance with the ethical standards indicated in each case.”

it should be read:

“From all study participants, consent to participate in the study was obtained in advance. Since all personal data used was anonymized, no additional consent was required for publication by our participants. In addition, all study participants were informed of the aim of the study, including the aim of publication. Therefore, by agreeing to participate, our participants have also given us their consent to publication.”
