Correction to: Journal of Shipping and Trade 2022, 7(1):16

<https://doi.org/10.1186/s41072-022-00117-6>

Following publication of the original article [1], some numbers and letters were wrongly placed in the equations (1) and (2) under the heading **Krugman's formulation** due to typesetting errors.

The equations currently show:

$$\bar{P}_i =^X P_k(t)/9 \quad (1)$$
$$k \in \Omega$$

$$V_{i1}(t) = K_1 * \bar{P}_i(t) - \beta \quad (2)$$

The equations should show:

$$\bar{P}_i = \sum_{k \in \Omega} P_k(t)/9 \quad (1)$$

$$V_i^1(t) = K_1 * \bar{P}_i(t)^{-\beta} \quad (2)$$

The original article [1] has been corrected.

Published online: 15 July 2022
